CHARGE ANYWHERE®
MOBILE PAYMENT
SOLUTIONS

The CHARGE Anywhere® Mobile Payment Solution* allows you to use your Blackberry® or PDA to process payments securely and in real-time over any wireless network. CHARGE Anywhere empowers your phone to accept payments, transforming your everyday smartphone into a complete wireless credit card terminal. You can even take advantage of card-present rates while away from the storefront with an optional Bluetooth® card reader/receipt printer!

Perfect for Mobile Merchants

This software application is the perfect solution for any merchant conducting business within a mobile environment, including:

- Retail
- Towing
- Delivery
- Taxi/limo
- Contractors
- And more!

Secure Processing

- Staying PCI compliant is easy while using the CHARGE Anywhere application by receiving over-the-air downloads and updates!

- PA DSS validated secure payment application for any Windows Mobile® device and most BlackBerry smartphones.

Hassle Free

Installation couldn't be easier! Wirelessly download CHARGE Anywhere, enter your merchant profile, and you are up and running in a matter of minutes. CHARGE Anywhere eliminates the need to carry a phone and a POS terminal. True to the name of the software, you will be able to accept credit card payments anywhere, anytime!

Contact your Harbortouch sales representative today to begin accepting credit card payments on the go!

*Supports Windows Mobile 5.0+ devices, Android™, J2ME, iOs, iPhone™ and most BlackBerry smartphones.
